NOTES TO THE SEMI-ANNUAL CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE SIX MONTH PERIOD ENDED 30 JUNE (CONTINUED)

4. Seasonality of operations

Our product portfolio is diversified primarily by geography. The nitrogen fertilizer industry is inherently dependent on fundamental supply and demand drivers, including global population growth, crop yields, feedstock costs, and seasonality of crop planting and harvesting seasons. These and other long-term and short-term drivers result in cyclical nitrogen fertilizer pricing trends. The global sales mitigate the impact of any region's seasonal fluctuations

5. Critical accounting judgment, estimates and assumptions

The preparation of the semi-annual condensed consolidated interim financial statements in compliance with IFRS requires management to make judgements, estimates and assumptions that affect amounts reported in the semi-annual condensed consolidated interim financial statements. The estimates and assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised or in the revision period and future periods, if the changed estimates affect both current and future periods.

Compared to the consolidated financial statements for the year ended 31 December 2021 there were no significant changes to the critical accounting judgements, estimates and assumptions that could result in significantly different amounts than those recognized in the consolidated financial statements.

The Group plans to finish the process of amending contractual terms in response to IBOR reform by the end of 2022.

The Group has assessed the impact of IBOR reform on its loans and has concluded that the interest rates relationships are no longer subject to uncertainty driven by IBOR reforms. - the condensed consolidated statement of financial position as at 30 June, 2022;
- the condensed consolidated statements of profit or loss and other comprehensive income for the three-month and the six-month periods ended 30 June 2022;
- the condensed consolidated statements of changes in equity for the six-month period ended 30 June 2022;
- the condensed consolidated statements of cash flows for the six-month period ended 30 June 2022; and
- notes to the semi-annual condensed consolidated interim financial statements.

Management is responsible for the preparation and presentation of these semi-annual condensed consolidated interim financial statements in accordance with IAS 34, '*Interim Financial Reporting*'. Our responsibility is to express a conclusion on these semi-annual condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of semi-annual condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2022 semi-annual condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'
